WHAT THE BOARD DID

A Committee to Receive Prospective Investors.

THEY WILL BE GIVEN A RIDE

All the Parties Interested in Having the Tin Mill and Glass Plant Located on the Suggested Sites Are Active—More Information.

There were a large number of business men present at the meeting of the board of trade last evening.

The session was called to order by the president, and J. R. Warner was asked to tell what he knew about the glass people who were hunting a location. He explained at length, and said their representative had said nothing about bonus, but was very particular about securing a suitable site, and they would like to locate here. "I am satisfied," continued the gentleman, "if they could get land here this is where they will build their plant, as some of the projectors are interested in the gas belt across the river."

Thompson Andrews, of East End, was present and said: "Our part of the city will make it interesting for any plant desiring to locate here. We will donate three acres of land on either side of the railroad, and in addition to this will give other land, which could be cut up and sold in lots. We will also do all we can in the way of furnishing money. The property is just outside the corporation limits on the Harvey Martin farm. In the hill is found good building stone and coal, and the city water main is not 600 yards from the place. There are also 40 acres of land between the railroad and the river which, if they choose to buy for their location, we will give them credit."

Attorney Travis explained that the Eastern syndicate, who owned land across the river, would give all the land needed, and thought they would give a bonus also, but would be prepared by Saturday to submit their proposition. Mr. Warner said he believed all the glass people wanted was from two to five acres of land, and Mr. Travis said he was sure the tin mill people wanted a bonus.

Mr. McDonald then said: "For the Southside, I cannot state definitely what we will do. We first want to know the size of the plant, the amount of their payroll, and whether they are reliable, substantial people, with known business experience. If they demonstrate they are able to do business successfully, as far as we are concerned, we are prepared to give them aid in a substantial way. But we want to know who they are. If they are the right kind of people, we are prepared to submit either ground or money; to take stock or loan them money. I refer to the tin mill people, and not the glass men."

Attorney Travis said assurances had been received from disinterested parties that the tin mill people were all right. The president then suggested that a committee be appointed to meet the companies, and Adolph Joseph suggested that J. E. McDonald, Thompson Andrews, A. J. Boyce, J. R. Warner and J. C. Deidrick act on the committee.

Mr. McDonald said: "From a personal standpoint I would be interested in locating the factories on the Southside. Mr. Andrews wants the East End, and Mr. Boyce is after another place. It is a question in my mind whether that would be a very harmonious outfit. We could meet the parties and lay our claims before them."

Attorney Travis was of the same belief. The chair then begged to be excused from the committee, and Messrs. Warner, Nellis and Hanley were selected. The question of securing carriages came up, and Mr. Warner suggested the interested people furnish the rigs and act as drivers. Mr. McDonald said when they went to Southside they could take the street cars. The president of the board said he would donate one carriage, and the board will pay for all others needed.

Mr. McDonald said: "I would like to hear some expressions from the people as to what they think the people as a city will do for those who propose to locate here. I am sure the tin mill company will not leave Youngstown unless very substantial inducements are given them. They are not going to move their plant for two or three acres of land. They want some money, and land is not going to cut much ice with them." He quoted what Lisbon did to get its tin mill.

Someone suggested that it would perhaps be wise to wait and see what the people wanted before making propositions. Mr. Warner remembered the time, years ago, he was interested in the

board of trade, and at that time they could not even get land.

Mr. Andrews said he had heard the proposition of the tin mill people was only in order to get an extra bonus at home, but the sense of the meeting was that whatever was done now would advertise the fact that the city was ready for any manufacturing company to locate here. Mr. Warner was appointed chairman of the committee, and he will set the time, and the interested parties will be on hand to show the representatives their various locations.

It was suggested that parties who are putting up the new syndicate building be seen and asked if they would arrange three or four rooms in order that the board might open permanent quarters. It was said there was no place in the city to take strangers, and fully 20 of the leading manufacturers are willing to pay \$50 a piece each year for such rooms. The matter was left in the hands of S. Whit, T. V. Milligan and G. Bendheim to investigate and report at the next meeting.

BIG FIRE AT IRONDALE.

Seven Families Rendered Homeless Yesterday Afternoon.

IRONDALE, Jan. 21.—(Special)—Fire broke out in the J. E. Paisley building yesterday afternoon, and for a time it seemed that Irondale would be destroyed. The flames spread rapidly, and soon communicated to the building owned by Alex. Morrison. In a short time this, too, was destroyed. Nearby is the Irondale House, and it was only a short time until one side was blazing. After a great deal of hard work, the building was saved, but is badly damaged.

The Paisley building was occupied by five families, and here the fire originated in the apartments of a family named Starkey. Three families lost all they had. The building was valued at \$3,500 and insured for \$1,000. The Morrison building had for its occupants two families and a saloon. The building cost \$1,500 and had \$1,000 insurance. The loss on the Irondale House is covered by insurance. When the alarm was given the mill was shut down, and only the strenuous efforts of several hundred workmen prevented that portion of the town from going up in smoke.

THE HON. J. C. TAGGART.

That Would Look Well, the Gentleman's Friends Think.

It is understood that a quiet movement, having for its object the nomination of Dr. J. C. Taggart, has been set on foot by some of the reverend gentleman's friends, and they propose to do all in their power to give him a seat in the legislature. Doctor Taggart was a brave soldier and has always taken more or less interest in politics. He is known in every town and hamlet of the county, and his long residence in this city has given him a wide acquaintance among the people. If he can be prevailed upon to make the race he will be supported by the votes and influence of many.

ONE MAY RETIRE.

Members of the Mountford Company Can't Agree.

John H. Mountford stated this afternoon that either he or Ambrose Massey must retire from the business of Mountford & Co. He has submitted a proposition in writing to Mr. Massey, and he will wait until Feb. 15 for an answer. If Mr. Massey has no desire to purchase his interest he will buy Mr. Massey's share on the same terms. There is a difference of opinion as to the manner in which the pottery should be managed.

NEXT MONTH

Will the Case of Miss DeVeny Against Dr. O. D. Shay Be Tried.

The breach of promise suit of Miss Bessie L. DeVeny, of Pittsburgh, against Dr. Oscar D. Shay will be tried in the United States court at Cleveland, Thursday, Feb. 11. The plaintiff is represented by Judge Ambler and Hon. R. W. Taylor, while Grosshans & Grosshans, assisted by W. S. Anderson, of Youngstown, will represent the defendant.

NO COMPROMISE.

Bruce Is Still After That Money From Ormes.

James Ormes, of East End, who was arrested on a charge of obtaining money under false pretence preferred against him by Archie Bruce and later released, has not effected a compromise. Bruce called on the mayor this afternoon and complained that Ormes manifests complete indifference, and has made no effort to fulfill the promise upon which he was given his freedom. It is said the outcome of the case is eagerly watched by several persons, and upon the termination of it depends whether future suits will be entered.

THE RUM DEMON MAD

And Every Lover of Humanity Is Very Glad.

REV. REAGER COMMENDS TRACY

The Pastor of the Wellsville Methodist Episcopal Church Speaks of the Evangelist as an Honest, Earnest Christian Gentleman—Rum and Saloomond Receive a Black Eye.

The report has been spread about by Dame Rumor, always unreliable, and in many cases untruthful, vicious and full of spite and hatred, that Rev. Dr. Reager had stated that Doctor Tracy had borrowed \$30 from him and never returned the money. Always on the alert for a news item, and ever eager to defend the truth and advocate the right, the NEWS REVIEW sent a reporter to Wellsville last night, to interview Reverend Reager, pastor of the Methodist Episcopal church of that place, where he is now carrying on a successful revival, and, under the blessing of the Master, accomplishing great good. The reporter was compelled to wait until the services were over, before he could have an interview with the pastor, resulting as follows:

"Doctor Reager, are you acquainted with Dr. N. W. Tracy, the temperance evangelist?"

"I have that pleasure," smilingly responded Reverend Reager.

"Has he your endorsement in his work? Do you believe him to be an honest, truthful man?"

"I know Doctor Tracy well. I believe him to be an honest, earnest Christian man. I worked with him in his meetings when he was engaged at Bucyrus, Ohio, and where I invested the sum of \$30 in the meetings, and it was the best spent money I ever invested."

"Reverend Reager, rumor has it that you loaned Doctor Tracy the sum of \$30, and that he never repaid you. An evil and wicked element, in line with the rum traffic and saloomonds, is using this rumor to Doctor Tracy's hurt, and trying, through him, to injure the temperance and total abstinence cause, the Woman's Christian Temperance Union, and the cause of humanity at large, cursed, as it is by the demon of rum. Will you deny the story?" Rev. Reager responded:

"Dr. N. W. Tracy never borrowed a cent from me, and he does not owe me a single penny. Further, to the best of my knowledge, he is absolutely honest and true, and an honorable, Christian gentleman."

And so the tricks, cunning, subterfuge and general cussedness of the liquor traffic and their agents and co-workers are brought to nought, while the cause of honor and honesty receives an upward and still better condition, while the character of Doctor Tracy, as a redeemed man, redeemed from the curse of intoxicants 20 years ago, through the mercy of God, stands out clean and pure, not a shadow of proof of evil against him, while his detractors are compelled to hide their heads in shame. Until proof—not rumor—is adduced against him, the NEWS REVIEW will champion his cause and bring joy into his dear old mother's heart, and help to gladden the heart of his sick and suffering wife. There is more to follow in this matter, as Doctor Tracy has found that the limit of patience has been reached, that forbearance has ceased to be a virtue, and the evangelist has determined to bring to account those who have so unfairly insulted and slandered him. Turn on the light.

LILIAN COLE BETHEL.

The Parliamentary Class Enthusiastic in Her Praise.

Mrs. Lillian Cole Bethel has scored a brilliant success in her position as teacher of parliamentary law and usages. The class participating in the lessons is enthusiastic in commendation of the lady. She will close her work in East Liverpool tomorrow night, and will then go to New York state, where a large class awaits her. The lady is fully posted on her subject, and possesses the rare power of imparting the same to her pupils in a very marked degree. The members of the class propose effecting a local organization, which will meet once per week and drill along the line laid out by Mrs. Bethel, and will aim to have the talented lady return to the city for a second engagement, in the near future.

Miss Clara A. Stephens, who accompanies Mrs. Bethel, acting as secretary and making arrangements for advance engagements, is a great lover of true journalism, and has had considerable experience in this field. Accompanied by Mrs. Bethel, Miss Stephens visited the NEWS REVIEW office and made a thorough inspection of the plant, Miss

Stephens complimenting the manager in being at the head of such a fine establishment, while both ladies were warm in their expressions of praise respecting the fine machinery, presses, gas engine, folders, etc., and commended the neatness displayed and discipline existing.

CONVICTED

Was the Student Charged With Raising a Check.

An audience estimated at 300 heard the mock trial at the business college last evening, and a very pleasant time they had.

The case dates back several days when in closing the business of the college bank it was found that the books would not balance. The students worked hard to find the error, and hours were passed in going over the business of the day. At length it was discovered that a check had been raised from \$300 to \$300.95, and it was decided to locate the culprit. After a vast deal of detective work the guilty person was found in Robert Buchanan, and it was decided that he should stand trial.

The court was organized with Frank Little as sheriff and George Simms in the role of clerk. Charles Danberg, secretary of the library, was prosecutor, and Professor Cooper defended his student. In the jury box sat Joseph May, Joseph Blazier, William Adams, Frank Little, H. E. Huston, Miss Flora McFarland, Miss Goldie Weaver, Miss Mary Fitzgerald, J. Callahan, Miss McCready, Miss Emma Schar and Miss Margaret Needham. Nine witnesses were examined for each side, the testimony being extremely amusing. After three hours the prisoner was declared guilty and sentenced to pay \$1,000 in college currency.

THE DOG IS A RACER.

He Tried Conclusions With the Electric Line.

His dogship was trotting along very complacently this morning, taking the clean street between the tracks of the street car line, when a car approached at a good rate of speed and gave chase to the canine. Doggie glanced back, discovered his danger, seemed to be driven into the mud, and sprinted lively. The motorman enjoyed the fun, turned on more electricity, made his car hum and hustle, and rang his bell vigorously. The combination was too much for the canine, and he side-tracked into Fifth street as the street car dashed by him.

SEVERAL POSTPONEMENTS

Has Marked a Case in the Court of Squire Rose.

Several days ago Harrison Rinehart obtained a judgment against George Bell for \$5 and costs, due on a lively bill. A notice in aid of execution was served on Robert Bell and he was notified to appear before Squire Rose this morning. When the time arrived he failed to show up, and the case was postponed until this afternoon. He still failed to appear, and as Constable Lyon was not in the city, the case was again postponed. The squire says he will appear the next time or an officer will be sent for him.

THEY WERE MARRIED.

Max Wechler and Miss Mamie Rich Made One.

Last evening Miss Mamie Rich, daughter of Leon Rich of this city, and Mr. Max Wechler, of New York, were united in marriage. The groom is a hardware merchant. The wedding took place at the home of the parents of the bride, on Third street. The pretty Jewish ceremony was used, Rabi Levete, of Steubenville, officiating. A number of out of town guests were present, and many handsome gifts were bestowed on the happy couple. Mr. and Mrs. Wechler will remain here a week, and then make their future home in New York.

THEY ARE SORRY

The Tin Company's Offer Got Into the Newspapers.

Attorney Travis this morning received a letter from the secretary of the Alacania Tin Mill company. The secretary said he had been away from the city, and that was the reason the request to send a representative here had not been looked after, but the company would send a man here within the next 10 days. He also expressed regret that the matter had gotten into the newspapers, and said the company had been deluged with offers from various cities since they wrote here.

Entertained the Crowd.

An itinerant umbrella mender, this morning entertained the passengers on a west bound street car with music from a mouth organ, and after he had been called to account by the motorman, entered into a spirited argument with a well known resident of this city. The passengers were amused if not instructed.

LIKED THE FEDERATION

Delegates to Columbus Report to Trades Council.

WHAT LIVERPOOL ACCOMPLISHED

Recognized by Positions on Important Committees—The Council Endorsed Van L. Drake, of Columbus, For State Supervisor of Printing.

The meeting of Trades council last night was one of importance, and the attendance consequently large.

The credentials of the five delegates who represent the sagger makers were received, and the secretary was instructed to notify all locals that the seal of the union must be placed on documents of this kind with only one name. This is to avoid confusion in obligating delegates. The Trades Union, official organ of the Central Labor union of Toledo, was ordered, and the council will have it delivered to the public library for a year. A resolution endorsing Van L. Drake for supervisor of public printing was passed, and locals were asked to lend their individual endorsement notifying Governor Bushnell of their wishes. This action was taken on the recommendation of the delegates to the Columbus convention. The work of the legislative committee of the state Federation was discussed at length, and the council heard the report of the Columbus delegates, William Ruhe, E. W. Hill and D. H. Yant.

The report said that the financial condition of trades unions restricted the number of delegates to 30, representing 23,000 unionists. They were men actuated by the highest motives to the betterment of their condition. Two local delegates were appointed to the grievance committee and one to the auditing committee. Among the resolutions the delegates submitted and had adopted was one condemning the use of second hand bottles; calling on ministers and leaders of reformed organizations to give the first Sunday of each May, an address on the rights of labor. Much space in the report is devoted to the work of the state Federation in securing beneficial legislation, the laws cited being compulsory education, free school books, the labor bureau, factory inspectors, inspection of bake shops, restrictions on convict made goods, and the passage of an act allowing the people to decide whether there shall be a revision of the constitution. This will be decided at the fall election, and the state convention instructed them to urge all locals to support the movement. The delegates close the report in endorsing the state Federation as an institution of great importance to the laboring classes.

THIS MAN WAS HIT.

At Least He Is Bitter Against the Boys Who Throw Snowballs.

EDITOR NEWS REVIEW—I want to kick and kick hard against the practice of snowballing in the streets. Last night I saw a great many persons have their hats knocked flying into the gutter or their heads knocked to one side by snowballs. There is an ordinance or police regulation which does not permit the throwing of baseballs in the streets, and I can't see why the same rule will not apply to snowballs. There is only the difference of the material composing them, and I believe no man would give the toss of a copper for choice if he was to be hit.

INDIGNANT.

MUCH DISSATISFACTION

Because Payday For Bridge Employees Was Delayed.

Much dissatisfaction is expressed by employees of the bridge company because they have had no pay this month. Saturday was the appointed time, but when the money came not the men were told they would be paid on Monday. That day passed without pay, and some employees, sadly in need of money, secured time checks and had them cashed for 10 per cent. It is given out today that the employees will be paid next Saturday, and the workmen hope it is true.

MAKING ARRANGEMENTS.

Ladies of the Bible Society and the Ministers Had a Meeting.

The Woman's Bible society and the ministers of the city held a meeting in the First Presbyterian church yesterday afternoon for the purpose of arranging for the annual exercises conducted by the society. It was the decision of the meeting that the anniversary be observed by special services in all the churches. Each minister will lay the matter before the officers of his congregation, and if there is no objection the program will be carried out.

The Pastor of the Wellsville Methodist Episcopal Church Speaks of the Evangelist as an Honest, Earnest Christian Gentleman—Rum and Saloonism Receive a Black Eye.

The report has been spread about by many rumors, always unreliable, and in some cases untruthful, and full of spite and hatred, that Rev. Dr. Reager had stated that Doctor Tracy had borrowed \$30 from him and never returned the money. Always on the alert for a news item, and ever eager to defend the truth and advocate the right, the NEWS REVIEW sent a reporter to Wellsville last night, to interview Reverend Reager, pastor of the Methodist Episcopal church of that place, where he is now carrying on a successful revival, and under the blessing of the Master, accomplishing great good. The reporter was compelled to wait until the services were over, before he could have an interview with the pastor, resulting as follows:

"Doctor Reager, are you acquainted with Dr. N. W. Tracy, the temperance evangelist?"

"I have that pleasure," smilingly responded Reverend Reager.

"Has he your endorsement in his work? Do you believe him to be an honest, truthful man?"

"I know Doctor Tracy well. I believe him to be an honest, earnest Christian man. I worked with him in his meetings when he was engaged at Bucyrus, Ohio, and where I invested the sum of \$30 in the meetings, and it was the best spent money I ever invested."

"Reverend Reager, rumor has it that you loaned Doctor Tracy the sum of \$30, and that he never repaid you. An evil and wicked element, in line with the rum traffic and saloonism, is using this rumor to Doctor Tracy's hurt, and trying, through him, to injure the temperance and total abstinence cause, the Woman's Christian Temperance Union, and the cause of humanity at large, cursed, as it is by the demon of rum. Will you deny the story?" Rev. Reager responded:

"Dr. N. W. Tracy never borrowed a cent from me, and he does not owe me a single penny. Further, to the best of my knowledge, he is absolutely honest and true, and an honorable, Christian gentleman."

And so the tricks, cunning, subterfuge and general cussedness of the liquor traffic and their agents and co-workers are brought to nought, while the cause of honor and honesty receives an upward and still better condition, while the character of Doctor Tracy, as a redeemed man, redeemed from the curse of intemperance 20 years ago, through the mercy of God, stands out clean and pure, not a shadow of proof of evil against him, while his detractors are compelled to hide their heads in shame. Until proof—not rumor—is adduced against him, the NEWS REVIEW will champion his cause and bring joy into his dear old mother's heart, and help to gladden the heart of his sick and suffering wife. There is more to follow in this matter, as Doctor Tracy has found that this limit of patience has been reached, that forbearance has ceased to be a virtue, and the evangelist has determined to bring to account those who have so unfairly insulted and slandered him. Turn on the light.

LILIAN COLE BETHEL.

The Parliamtarian Class Enthusiastic in Her Praise.

Mrs. Lillian Cole Bethel has scored a brilliant success in her position as teacher of parliamentary law and usages. The class participating in the lessons is enthusiastic in commendation of the lady. She will close her work in East Liverpool tomorrow night, and will then go to New York state, where a large class awaits her. The lady is fully posted on her subject, and possesses the rare power of imparting the same to her pupils in a very marked degree. The members of the class propose effecting a local organization, which will meet once per week and drill along the line laid out by Mrs. Bethel, and will aim to have the talented lady return to the city for a second engagement, in the near future.

Miss Clara A. Stephens, who accompanies Mrs. Bethel, acting as secretary and making arrangements for advance engagements, is a great lover of true journalism, and has had considerable experience in this field. Accompanied by Mrs. Bethel, Miss Stephens visited the NEWS REVIEW office and made a thorough inspection of the plant, Miss

Stephens complimenting the manager in being at the head of such a fine establishment, while both ladies were warm in their expressions of praise respecting the fine machinery, presses, gas engine, folders, etc., and commended the neatness displayed and discipline existing.

CONVICTED

Was the Student Charged With Raising a Check.

An audience estimated at 300 heard the mock trial at the business college last evening, and a very pleasant time they had.

The case dates back several days when in closing the business of the college bank it was found that the books would not balance. The students worked hard to find the error, and hours were passed in going over the business of the day. At length it was discovered that a check had been raised from \$300 to \$300.95, and it was decided to locate the culprit. After a vast deal of detective work the guilty person was found in Robert Buchanan, and it was decided that he should stand trial.

The court was organized with Frank Little as sheriff and George Simms in the role of clerk. Charles Danberg, secretary of the library, was prosecutor, and Professor Cooper defended his student. In the jury box sat Joseph May, Joseph Blazier, William Adams, Frank Little, H. E. Huston, Miss Flora McFarland, Miss Goldie Weaver, Miss Mary Fitzgerald, J. Callahan, Miss McCready, Miss Emma Schar and Miss Margaret Needham. Nine witnesses were examined for each side, the testimony being extremely amusing. After three hours the prisoner was declared guilty and sentenced to pay \$1,000 in college currency.

THE DOG IS A RACER.

He Tried Conclusions With the Electric Line.

His dogship was trotting along very complacently this morning, taking the clean street between the tracks of the street car line, when a car approached at a good rate of speed and gave chase to the canine. Doggie glanced back, discovered his danger, scorned to be driven into the mud, and sprinted lively. The motorman enjoyed the fun, turned on more electricity, made his car hum and hustle, and rang his bell vigorously. The combination was too much for the canine, and he side-tracked into Fifth street as the street car dashed by him.

SEVERAL POSTPONEMENTS

Has Marked a Case In the Court of Squire Rose.

Several days ago Harrison Rinehart obtained a judgment against George Bell for \$8 and costs, due on a livery bill. A notice in aid of execution was served on Robert Bell and he was notified to appear before Squire Rose this morning. When the time arrived he failed to show up, and the case was postponed until this afternoon. He still failed to appear, and as Constable Lyon was not in the city, the case was again postponed. The squire says he will appear the next time or an officer will be sent for him.

THEY WERE MARRIED.

Max Wechler and Miss Mamie Rich Made One.

Last evening Miss Mamie Rich, daughter of Leon Rich of this city, and Mr. Max Wechler, of New York, were united in marriage. The groom is a hardware merchant. The wedding took place at the home of the parents of the bride, on Third street. The pretty Jewish ceremony was used, Rabi Levette, of Steubenville, officiating. A number of out of town guests were present, and many handsome gifts were bestowed on the happy couple. Mr. and Mrs. Wechler will remain here a week, and then make their future home in New York.

THEY ARE SORRY

The Tin Company's Offer Got Into the Newspapers.

Attorney Travis this morning received a letter from the secretary of the Alacania Tin Mill company. The secretary said he had been away from the city, and that was the reason the request to send a representative here had not been looked after, but the company would send a man here within the next 10 days. He also expressed regret that the matter had gotten into the newspapers, and said the company had been deluged with offers from various cities since they wrote here.

Entertained the Crowd.

An itinerant umbrella mender, this morning entertained the passengers on a west bound street car with music from a mouth organ, and after he had been called to account by the motorman, entered into a spirited argument with a well known resident of this city. The passengers were amused if not instructed.

Delegates to Columbus Report to Trades Council.

WHAT LIVERPOOL ACCOMPLISHED

Recognized by Positions on Important Committees—The Council Endorsed Van L. Drake, of Columbus, For State Supervisor of Printing.

The meeting of Trades council last night was one of importance, and the attendance consequently large.

The credentials of the five delegates who represent the sagger makers were received, and the secretary was instructed to notify all locals that the seal of the union must be placed on documents of this kind with only one name. This is to avoid confusion in obligating delegates. The Trades Union, official organ of the Central Labor union of Toledo, was ordered, and the the council will have it delivered to the public library for a year. A resolution endorsing Van L. Drake for supervisor of public printing was passed, and locals were asked to lend their individual endorsement notifying Governor Bushnell of their wishes. This action was taken on the recommendation of the delegates to the Columbus convention. The work of the legislative committee of the state Federation was discussed at length, and the council heard the report of the Columbus delegates, William Ruhe, E. W. Hill and D. H. Yant.

The report said that the financial condition of trades unions restricted the number of delegates to 30, representing 23,000 unionists. They were men actuated by the highest motives to the betterment of their condition. Two local delegates were appointed to the grievance committee and one to the auditing committee. Among the resolutions the delegates submitted and had adopted was one condemning the use of second hand bottles; calling on ministers and leaders of reformed organizations to give the first Sunday of each May, an address on the rights of labor. Much space in the report is devoted to the work of the state Federation in securing beneficial legislation, the laws cited being compulsory education, free school books, the labor bureau, factory inspectors, inspection of bake shops, restrictions on convict made goods, and the passage of an act allowing the people to decide whether there shall be a revision of the constitution. This will be decided at the fall election, and the state convention instructed them to urge all locals to support the movement. The delegates close the report in endorsing the state Federation as an institution of great importance to the laboring classes.

THIS MAN WAS HIT.

At Least He Is Bitter Against the Boys Who Throw Snowballs.

EDITOR NEWS REVIEW—I want to kick and kick hard against the practice of snowballing in the streets. Last night I saw a great many persons have their hats knocked flying into the gutter or their heads knocked to one side by snowballs. There is an ordinance or police regulation which does not permit the throwing of baseballs in the streets, and I can't see why the same rule will not apply to snowballs. There is only the difference of the material composing them, and I believe no man would give the toss of a copper for choice if he was to be hit.

INDIGNANT.

MUCH DISSATISFACTION

Because Payday For Bridge Employees Was Delayed.

Much dissatisfaction is expressed by employees of the bridge company because they have had no pay this month. Saturday was the appointed time, but when the money came not the men were told they would be paid on Monday. That day passed without pay, and some employees, sadly in need of money, secured time checks and had them cashed for 10 per cent. It is given out today that the employees will be paid next Saturday, and the workmen hope it is true.

MAKING ARRANGEMENTS.

Ladies of the Bible Society and the Ministers Had a Meeting.

The Woman's Bible society and the ministers of the city held a meeting in the First Presbyterian church yesterday afternoon for the purpose of arranging for the annual exercises conducted by the society. It was the decision of the meeting that the anniversary be observed by special services in all the churches. Each minister will lay the matter before the officers of his congregation, and if there is no objection the program will be carried out.

An Unworthy Vessel Sailed From New

York For Brazil Under Protest.

NEW YORK, Jan. 21.—The Nova

Scotia brig Electric Light, which put in

here a week ago with four feet of

water in the hold, has sailed on her

way to Rio Grande do Sul with a crew

of four mutineers and five longshore-

men, accompanied by a new captain

and mates. The mutineers plainly

threatened the captain with violence if

he persisted in leaving the port under

the circumstances.

The trouble arose from the alleged

condition of the ship, which is deeply

laden with a general cargo of merchan-

dise. They claimed she was not sea-

worthy and demanding a hearing be-

fore the British consul. Her captain,

she was abandoned her when

succeeded by one Edwards. The tug

Guiding Star went alongside the brig

with the longshoremen and Edwards

ordered the negroes to hoist anchor

and make ready to sail. They refused

to move, reiterating their demand that

they be put ashore with their baggage.

The captain declined to do so and

ordered the longshoremen to proceed

with the work. They raised the anchor,

the tug took the brig in tow and pro-

ceeded out to sea, the mutineers mean-

forecastle.

The Wood Too Wet or One Would Have

NEW ORLEANS, Jan. 21.—More news

from the lynching at Amite City, La.,

shows that the three negro murderers

are dead, two, Arch Joiner and John

Johnson, who at the last moment con-

fessed their guilt of the killing of five

members of the Cotton family, and Gus

Williams, alias Morrissey, who shot and

killed his young wife. The bodies of

the two former hang to a limb of a

stout oak in the woods about a half

mile from the house in which they

butchered their victims. They were

riddled with bullets. The last negro's

body was cut down and an inquest held

over it.

There were 300 men in the mob. It

was intended to burn Johnson at the

stake, but the wood was wet and some

of the mob begged that he be let off.

Joiner said Johnson had gotten him

into the trouble and wanted to fight.

Johnson was willing, so they were al-

lowed to have a rough and tumble fist-

fight. Joiner bit one of the mob's hand

trying to escape. He tried to escape

twice.

TWO SUICIDE TO ESCAPE INSULT.

The Mayor of an Interior Town Hung

Before His Wife and Daughter—Can-

bans Defeated the Spanish Troops In

Two Fights—Horrible Atrocities.

* KEY WEST, Jan. 21.—Among the

passengers on the steamer from Havana

was Jose Micanco, from the interior,

south of Havana. He reports a fight

at Helena del Sur, in the southern part

of Havana province, two weeks ago,

that the officials in Havana have not

yet reported.

A Spanish cavalry force of some 600

men, camping there were surprised by

400 Cubans, under Colonel Sanchez,

one of Maceo's old officers. The Span-

ish forces fought bravely, but retreated

within half an hour with 30 men

killed. The Cubans suffered a loss of

eight. The Cubans pursued, but were

drawn into ambush and punished terri-

bly, losing 50 men. They withdrew

and the Spanish troops re-entered their

old camp and began merry making in

honor of their victory.

Late that night the insurgents again

attacked and surprised the camp, forc-

ing their way to the commanding

officer's quarters before their presence

was discovered. Then the terror stricken

Spanish soldiers fled, flinging down

their weapons. The insurgents pursued

them for miles, killing and wounding

over 100. The captured officers were

finally released on parole. The Cubans

were received by the people as deliver-

ers. After remaining there two days

they moved northward.

Three days after that a Spanish force,

commanded by the guerrilla captain,

Felix Desgrata, marched in. After

securing the mayor and other officers

as prisoners, he secured the persons of

the leading women of the place and

then gave the town over to his ruffianly

soldiers. For the next 24 hours the

Spanish guerrillas had their own way

with helpless women and girls. Seven

men and four young lads were brutally

killed while attempting to protect their

relatives. Many women died from

their treatment. Two young women

killed themselves rather than submit to

the insults of the soldiers.

The mayor was hanged in front of

his own door, his wife and daughter

being compelled to witness the execution.

The captain charged that he

gave aid to the rebels. Two of the

other officials were brutally beaten and

then released with a caution that the

next visit meant death. The insur-

gents have set a price upon the head of

this captain and if caught his trial will

be short.

PREMIER CANOVAS DISMAYED.

Secretary Olney Said to Have Broken Off

Negotiations With Spain.

LONDON, Jan. 21.—The correspondent

at Paris of The Daily News says:

"During the negotiations with the

United States last week Senor Canovas,

the Spanish premier, was surprised and

dismayed to receive an intimation from

Washington that Secretary Olney would

have no time to settle the Cuban ques-

tion and that he would leave President

McKinley's hands free to deal with it.

Two days later Senor Canovas issued

an official denial that negotiations were

proceeding.

received a tremendous ovation from the

legislature in joint session and a great

crowd of spectators. The vote for sena-

nounced as follows: Teller, 92; Allen,

was loudly applauded.

In an interview Mr. Teller severely

Urged For Senator.

CANTON, O., Jan. 21.—National Chair-

ence with Major McKinley. He refused

to talk of what transpired.

CLEVELAND, Jan. 21.—The Thirty-

second ward Foraker club of this city,

an organization named in honor of

Senator Foraker, held a meeting and

endorsed Hon. M. A. Hanna for the

state that he is the right man to serve

out the unexpired term of Senator

FLIMSY OBJECTIONS.

It is hard to understand why so many
members of congress are opposed to a
law restricting immigration. Since the
Lodge bill went to the house and senate
confers the real force of this opposition
has appeared. The bill provides that
every immigrant, before being ad-
mitted to this country, must read five
lines from the constitution, the test be-
ing made in order that the ignorance of
the old world be barred from America
until it has taken on some show of in-
telligence. That provision meets with
general approbation throughout the
country, but it found a bitter enemy in
Chairman Bartholdt, of the house com-
mittee. He said it would take too much
time to unload immigrants, and ships
must wait four or five days if that part
of the law was enforced. In other
words he would have the laws of this
country made to suit the convenience
of a steamship company, that the great
United States must import ignorance
and depravity and poverty because some
steamer's captain is in a hurry. Shades
of Washington and Webster! Has
American statesmanship degenerated to
this? Must the country long endure a
man of this kind?

TWO SUICIDE TO ESCAPE INSULT.

The Mayor of an Interior Town Hung
Before His Wife and Daughter—Cubans
Defeated the Spanish Troops In
Two Fights—Horrible Atrocities.

* KEY WEST, Jan. 21.—Among the
passengers on the steamer from Havana
was Jose Micando, from the interior,
south of Havana. He reports a fight
at Helena del Sur, in the southern part
of Havana province, two weeks ago,
that the officials in Havana have not
yet reported.

A Spanish cavalry force of some 600
men, camping there were surprised by
400 Cubans, under Colonel Sanchez,
one of Maceo's old officers. The Span-
ish forces fought bravely, but retreated
within half an hour with 20 men
killed. The Cubans suffered a loss of
eight. The Cubans pursued, but were
drawn into ambush and punished terri-
bly, losing 50 men. They withdrew
and the Spanish troops re-entered their
old camp and began merry making in
honor of their victory.

Late that night the insurgents again
attacked and surprised the camp, forc-
ing their way to the commanding
officer's quarters before their presence
was discovered. Then the terror-stricken
Spanish soldiers fled, flinging down
their weapons. The insurgents pursued
them for miles, killing and wounding
over 100. The captured officers were
finally released on parole. The Cubans
were received by the people as deliver-
ers. After remaining there two days,
they moved northward.

Three days after that a Spanish force,
commanded by the guerrilla captain,
Felix Desgratia, marched in. After
seizing the mayor and other officers
as prisoners, he secured the persons of
the leading women of the place and
then gave the town over to his ruffianly
soldiers. For the next 24 hours the
Spanish guerrillas had their own way
with helpless women and girls. Seven
men and four young lads were brutally
killed while attempting to protect their
relatives. Many women died from
their treatment. Two young women
killed themselves rather than submit to
the insults of the soldiers.

The mayor was hanged in front of
his own door, his wife and daughter
being compelled to witness the execu-
tion. The captain charged that he
gave aid to the rebels. Two of the
other officials were brutally beaten and
then released with a caution that the
next visit meant death. The insur-
gents have set a price upon the head
of this captain and if caught his trial will
be short.

PREMIER CANOVAS DISMAYED.

Secretary Olney Said to Have Broken Off
Negotiations With Spain.

LONDON, Jan. 21.—The correspondent
at Paris of The Daily News says:
"During the negotiations with the
United States last week Senor Canovas,
the Spanish premier, was surprised and
dismayed to receive an intimation from
Washington that Secretary Olney would
have no time to settle the Cuban ques-
tion and that he would leave President
McKinley's hands free to deal with it.
Two days later Senor Canovas issued
an official denial that negotiations were
proceeding.

"It is a great blow to Senor Canovas,
who has no confidence in General Wey-
ler's ability to suppress the rebellion.
He is credited with an intention to re-
sign if General Weyler has not given a
deathblow to the revolution by the be-
ginning of the rainy season."

LEE AND MONEY.

The Consul General Declares There Will
Be No Duel Between Them.

HAVANA, Jan. 21.—General Lee,
United States consul general, in an in-
terview here, alluded to sensational re-
ports circulated in the United States
that a duel was probable between Con-
gressman Money and himself on ac-
count of a statement made by the lat-
ter of conversations he had with Gen.
Lee while here. The consul general
says that such a story is ridiculous.

"Money and I both had a belly full
of fight in the last war," the general
added. At the time of Mr. Money's
departure, General Lee expressed his
pleasure that he had personally visited
Cuba and talked freely with him, but
he says that he sent no message to Sec-
retary Olney.

C

DEFENDED BY OLNEY.

He Answers Criticisms on His Treaty by Senators.

THE MONROE DOCTRINE STANDS.

A Question Arising on This Point Would Be Excepted From the Scope of Simple Arbitration—King Oscar Not to Arbitrate Most Important Disputes.

WASHINGTON, Jan. 21.—When Secretary Olney appeared before the senate committee on foreign relations to explain the arbitration treaty between England and the United States there was a general discussion of the provisions of the treaty, nearly every member questioning the secretary about it and its probable effect. Nothing was brought out showing any definite plan of the committee or its intention regarding the treaty, though the questions put to the secretary indicated that there would be opposition to many of its provisions and that there were differences of opinion between members and the secretary as to the effect of the treaty.

Secretary Olney supported his assertion that the treaty was in no sense an abrogation or subversion of the Monroe doctrine, by pointing out that article 7 expressly provided that if in the course of the arbitration of a claim it was found that the decision involved the decision of a disputed question of principle of general importance affecting the national rights of such party as distinguished from the private rights of which it was a representative, the jurisdiction of the simple arbitration, composed of two arbitrators and an umpire, shall cease, and it shall be dealt with by the more complex arbitration set down for the settlement of territorial claims and composed of judges of the United States and British supreme courts.

The secretary pointed out that in this case a question arising under the Monroe doctrine would certainly be regarded as excepted from the scope of the simple or original arbitration. Then if it should come before the second tribunal, an adverse decision against the United States, and consequently against the doctrine, could be had only in case five of the six arbitrators so decided, an utterly improbable contingency, in view of the fact that this would involve casting two of the three votes of the United States representatives against their own country.

Then to quiet apprehension that the United States might suffer from the selection of an umpire, King Oscar, who would naturally sympathize with the European side of the case, the secretary pointed out that after all the only harm that could result to the United States would be a small financial loss, for the king is to name the umpire only in cases involving the pecuniary claims and other matters not involving any important principle, and even in such cases either power could insist upon a substitute for King Oscar in any particular case.

Mr. Olney declared that the treaty had been negotiated with great care for the protection of American interests and expressed the opinion that if ratified it would be found a satisfactory safeguard of the national interests of the United States. He held that the treaty clearly expressed its purpose and said there was no hidden meaning concealed in its phraseology. He contended for its approval as an advance in diplomacy in accordance with the tendency of the times. A general disposition was manifested by the committee to give the treaty fair and full consideration and Mr. Olney was made to understand that the committee wanted the fullest possible information and that having obtained this, it would be disposed to take up and act upon the treaty on its merits.

The third topic discussed by Mr. Olney and the members of the committee was the possible effect of the treaty on the Nicaragua canal. Mr. Olney admitted that any dispute arising over the canal would be subject to arbitration under the agreement, but he contended that the advantages secured were more than sufficient to counteract this defect.

Again referring to the designation of King Oscar as umpire, Mr. Olney said that he was in no wise wedded to the selection, but that it had appeared better to provide an umpire than to leave the work of agreement on disputed points to the arbitrators and that the Swedish sovereign had been accepted as a fairly disposed man.

The committee expressed a determination, after Mr. Olney left, to take up the subject at its next meeting with a view to disposing of it as early as possible. It is not considered probable that final action can be reached at one more sitting, but members of the committee assert that there is now no disposition to postpone the report until the next session of congress, as for a time seemed to be the case. It is generally agreed that the documents will be amended in some particulars, and this will necessitate more or less delay. While Mr. Olney was before the committee he was asked whether the Venezuelan commission had made a report to the state department, and he replied that it had not.

ATTACKED BY SENATORS.

Turpie Assailed Nicaragua Canal and Pettigrew the Venezuelan Treaty.

WASHINGTON, Jan. 21.—The senate proceeded with the consideration of the Nicaragua canal bill, Mr. Turpie continuing his speech in opposition. His remarks were bitterly antagonistic to the Nicaragua Canal company, the senator characterizing its methods as those of Peter Funk. Mr. Morgan will ask to have a time fixed for a final vote as soon as Mr. Turpie closes.

The legislative, executive and judicial appropriation bill, carrying approximately \$23,000,000, was passed during the day.

Mr. Pettigrew (S. D.) severely criticized the executive authorities for concluding the Venezuela boundary agreement, which, he said, was a complete surrender of Venezuela to Great Britain. His resolution calling on the secretary of state for information was referred to the committee on foreign relations. Unanimous agreement was secured for taking up the bill for an international monetary conference on Tuesday next.

Debated an Election Case.

WASHINGTON, Jan. 21.—The house spent the day debating the Yost-Tucker contested election case from the Tenth Virginia district. Much interest was manifested in the case, owing to the fact that the Republicans on the committee which reported the case were divided, four siding with Mr. Tucker, the Democrat and the sitting member, and but two with the Republican contestant, Mr. Yost.

NO EVIDENCE AGAINST IVORY.

The Alleged Irish Dynamite Discharged In England.

LONDON, Jan. 21.—The crown prosecutor has withdrawn the charge of conspiring to cause a dynamite explosion brought against Edward J. Ivory, alias Bell, the saloonkeeper of New York, who was arrested in Glasgow in September, and Justice Hawkins discharged the prisoner.

The solicitor general, R. B. Finlay, Q. C., M. P., who prosecuted for the crown, announced that he had definitely ascertained that the delivery of the explosives at Antwerp occurred after Ivory left that place and that there was no legal evidence that the prisoner was cognizant of their delivery. Therefore it had been decided not to present evidence thereon.

Continuing Mr. Finlay said in regard to the other evidence against Ivory that while he felt that the correspondence which had fallen into the hands of the police and the movements of Ivory permitted the gravest suspicion, there was no evidence justifying the crown in asking for his conviction.

DEFENDED BY OLNEY.

He Answers Criticisms on His Treaty by Senators.

THE MONROE DOCTRINE STANDS.

A Question Arising on This Point Would Be Excepted From the Scope of Simple Arbitration—King Oscar Not to Arbitrate Most Important Disputes.

WASHINGTON, Jan. 21.—When Secretary Olney appeared before the senate committee on foreign relations to explain the arbitration treaty between England and the United States there was a general discussion of the provisions of the treaty, nearly every member questioning the secretary about it and its probable effect. Nothing was brought out showing any definite plan of the committee or its intention regarding the treaty, though the questions put to the secretary indicated that there would be opposition to many of its provisions and that there were differences of opinion between members and the secretary as to the effect of the treaty.

Secretary Olney supported his assertion that the treaty was in no sense derogation or subversion of the Monroe doctrine, by pointing out that article 7 expressly provided that if in the course of the arbitration of a claim it was found that the decision involved the principle of grave general importance affecting the national rights of such party as distinguished from the private rights of which it was a representative, the jurisdiction of the simple arbitration, composed of two arbitrators and an umpire, shall cease, and it shall be dealt with by the more complex arbitration set down for the settlement of territorial claims and composed of judges of the United States and British supreme courts.

The secretary pointed out that in this case a question arising under the Monroe doctrine would certainly be regarded as excepted from the scope of the simple or original arbitration. Then if it should come before the second tribunal, an adverse decision against the United States, and consequently against the doctrine, could be had only in case five of the six arbitrators so decided, an utterly improbable contingency, in view of the fact that this would involve casting two of the three votes of the United States representatives against their own country.

Then to quiet apprehension that the United States might suffer from the selection of an umpire, King Oscar, who would naturally sympathize with the European side of the case, the secretary pointed out that after all the only harm that could result to the United States would be a small financial loss, for the king is to name the umpire only in cases involving the pecuniary claims and other matters not involving any important principle, and even in such cases either power could insist upon a substitute for King Oscar in any particular case.

Mr. Olney declared that the treaty had been negotiated with great care for the protection of American interests and expressed the opinion that if ratified it would be found a satisfactory safeguard of the national interests of the United States. He held that the treaty clearly expressed its purpose and said there was no hidden meaning concealed in its phraseology. He contended for its approval as an advance in diplomacy in accordance with the tendency of the times. A general disposition was manifested by the committee to give the treaty fair and full consideration and Mr. Olney was made to understand that the committee wanted the fullest possible information and that having obtained this, it would be disposed to take up and act upon the treaty on its merits.

The third topic discussed by Mr. Olney and the members of the committee was the possible effect of the treaty on the Nicaragua canal. Mr. Olney admitted that any dispute arising over the canal would be subject to arbitration under the agreement, but he contended that the advantages secured were more than sufficient to counteract this defect.

Again referring to the designation of King Oscar as umpire, Mr. Olney said that he was in no wise wedded to the selection, but that it had appeared better to provide an umpire than to leave the work of agreement on disputed points to the arbitrators and that the Swedish sovereign had been accepted as a fairly disposed man.

The committee expressed a determination, after Mr. Olney left, to take up the subject at its next meeting with a view to disposing of it as early as possible. It is not considered probable that final action can be reached at one more sitting, but members of the committee assert that there is now no disposition to postpone the report until the next session of congress, as for a time seemed to be the case. It is generally agreed that the documents will be amended in some particulars, and this will necessitate more or less delay. While Mr. Olney was before the committee he was asked whether the Venezuelan commission had made a report to the state department, and he replied that it had not.

ATTACKED BY SENATORS.

Turpie Assailed Nicaragua Canal and Pettigrew the Venezuelan Treaty.

WASHINGTON, Jan. 21.—The senate proceeded with the consideration of the Nicaragua canal bill, Mr. Turpie continuing his speech in opposition. His remarks were bitterly antagonistic to the Nicaragua Canal company, the senator characterizing its methods as those of Peter Funk. Mr. Morgan will ask to have a time fixed for a final vote as soon as Mr. Turpie closes.

The legislative, executive and judicial appropriation bill, carrying approximately \$23,000,000, was passed during the day.

Mr. Pettigrew (S. D.) severely criticized the executive authorities for conceding the Venezuela boundary agreement, which, he said, was a complete surrender of Venezuela to Great Britain. His resolution calling on the secretary of state for information was referred to the committee on foreign relations. Unanimous agreement was secured for taking up the bill for an international monetary conference on Tuesday next.

A SILVER SENATOR'S PLAN.

Cannon Introduces a Substitute Bill For a Bimetallite Conference.

WASHINGTON, Jan. 21.—Senator Cannon of Utah has introduced the following as a substitute for the Republican international monetary conference bill:

"That within 90 days after March 4, 1897, the president of the United States shall invite the leading commercial nations of the world to appoint representatives to an international monetary conference to convene on or before Oct. 1, 1897, at such place in the city of Washington as the president may designate; and also within said 90 days after March 4, 1897, the president shall appoint five commissioners to represent the United States at such conference, the duty of which United States commissioners shall be to urge the adoption by said conference of a plan for the free and unlimited coinage of silver and gold at some ratio ranging between 15 and 16 to 1, by the nations represented at such conference."

Debated an Election Case.

WASHINGTON, Jan. 21.—The house spent the day debating the Yost-Tucker contested election case from the Tenth Virginia district. Much interest was manifested in the case, owing to the fact that the Republicans on the committee which reported the case were divided, four siding with Mr. Tucker, the Democrat and the sitting member, and but two with the Republican contestant, Mr. Yost.

Harrison in Supreme Court.

WASHINGTON, Jan. 21.—Ex-President Harrison was in the supreme court yesterday, where he appears as counsel in the case of Mrs. Catherine Forsythe against the town of Hammond, near Chicago. Mrs. Forsythe seeks to prevent the annexation of a large tract of land owned by her to the town, and the ex-president is among her counsel, as is also ex-Attorney General Miller.

Will Give a Dinner to Sherman.

WASHINGTON, Jan. 21.—The members of the Ohio delegation in the house are arranging for a complimentary dinner to be given to Senator Sherman upon his retirement from the senate to accept the portfolio of state in Mr. McKinley's cabinet.

Condition of the Treasury.

WASHINGTON, Jan. 21.—The statement of the condition of the treasury shows: Available cash balance, \$225,608,017; gold reserve, \$142,539,820.

NO EVIDENCE AGAINST IVORY.

The Alleged Irish Dynamiter Discharged in England.

LONDON, Jan. 21.—The crown prosecutor has withdrawn the charge of conspiring to cause a dynamite explosion brought against Edward J. Ivory, alias Bell, the saloonkeeper of New York, who was arrested in Glasgow in September, and Justice Hawkins discharged the prisoner.

The solicitor general, R. B. Finlay, Q. C. M. E., who prosecuted for the crown, announced that he had definitely ascertained that the delivery of the explosives at Antwerp occurred after Ivory left that place and that there was no legal evidence that the prisoner was cognizant of their delivery. Therefore it had been decided not to present evidence thereon.

Continuing Mr. Finlay in regard to the other evidence against Ivory that while he felt that the correspondence which had fallen into the hands of the police and the movements of Ivory permitted the gravest suspicion, there was no evidence justifying the crown in asking for his conviction.

Failure of Colonel William Jack.

HOLLIDAYSBURG, Pa., Jan. 21.—The closing of the First National bank of Hollidaysburg, the Martinsburg Deposit bank and the Williamsburg Deposit bank on Dec. 14 last, has precipitated the failure of Colonel William Jack, who was the president of these three institutions. The judgment creditors are William Howard of Pittsburgh, the First National bank and the Martinsburg bank.

Won a Breach of Promise Case.

LONDON, Jan. 21.—In the suit for breach of promise brought by Miss Mabel Duncan of "The Geisha" company against Captain Arthur Bingham Crabbe of the Royal Irish regiment, damages being asked to the amount of \$50,000, a verdict by consent was rendered for the plaintiff.

Strikers Made a Mistake.

LEADVILLE, Colo., Jan. 21.—The mine owners, it is understood, will pay no attention whatever to the "hats" referred to in the strike of the miners. E. V. Dobs considers that the strikers made a mistake in rejecting the terms offered by the mine owners.

NEWPORT, R. I., Jan. 21.—It is announced that United States torpedo boat No. 6, on her trial trip, made 26.85 knots over the measured mile under 180 pounds steam pressure during her trial. The contract speed must be 27.5 knots, which figure, it is predicted, will be easily exceeded.

Just why the officer did not hear it is beyond the powers to reveal. He wishes someone to state on oath the happening occurred. Would it not be well for the police to depend upon their own senses?

Ware Will Be Made In the Zanesville Pottery.

SHIPPING FACILITIES EXCELLENT

The Company Think They Have a Very Good Thing, and Are Preparing to Get Their Share of the Trade—A Meeting Was Held Last Night.

Within six weeks ware will be made by East Liverpool potters in their new plant at Zanesville.

The stockholders held a meeting last night, all being present but the Akron men. It was decided that immediate action be taken, and the plant prepared for operation at once. Only a few repairs are necessary, and no time will be lost in making them. Four of the 10 kilns must be changed somewhat, and this will be done at once. A few stove rooms must be built, and several members of the company will go to Zanesville next week to supervise their construction. The slipshouse can be made ready for work in two days, and the remainder of the plant is in the best of condition. A number of Zanesville capitalists have expressed a desire to take stock, but the company decided they already had enough stockholders. There are some Zanesville men in the project, one of them being very wealthy. There is nothing in the published story that the cost of hauling ware to the railroad would amount to thousands of dollars a year. Zanesville is a railroad center, and the shipping facilities are excellent. Another meeting of the company will be held this week.

When two Chinamen meet, their way of saying "How do you do?" is "How are your bowels?" It amounts to the same thing. If the bowels are in good condition the rest of the system is pretty sure to be all right. But when they are constipated, it has a half-paralyzing effect on the rest of the body—and the mind too. Headaches, dyspepsia, biliousness, nervousness, poor sleep, weakness, heart palpitation and gloomy spirits, all come from constipation. And that isn't the worst of it. It lays your system open to all sorts of serious and dangerous illness.

It isn't safe to neglect constipation and it isn't safe to use dangerous wrenching cathartics, to overcome it, either. They leave you worse off than before. What is needed is a mild natural laxative like Dr. Pierce's Pleasant Pellets. They act surely but without any violence. They regulate and strengthen the intestines to do their own work. When the "Pleasant Pellets" cure you, you are cured. You don't become a slave to their use. Take care the druggist doesn't give you something else he calls "just as good." It may be for him, but how about you?

You might learn a thousand valuable lessons about preserving your health by reading Dr. Pierce's Common Sense Medical Adviser. It is a grand book and the present edition is absolutely free. All who send 21 one-cent stamps to cover cost of mailing only. It contains 1008 pages and over 300 engravings. 660,000 cloth-bound copies have been sold at \$1.50 each. This free edition is in strong manila paper covers, otherwise it is just the same. Address World's Dispensary Medical Association, Buffalo, N. Y.

P. J. GREEN, V. S., TALKS.

Makes a Public Statement for the Benefit of our Citizens.

Veterinary Surgeon Green requires no introduction to our readers, and on the other hand our readers can safely be trusted to draw their own deductions and arrive at their own conclusions. Read this. "Some time ago," says Mr. Green, "while attending a sick horse belonging to Mr. G. H. Gardner, of 165 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sickler of the two, as I could at the time scarcely straighten up with my back from lameness, weakness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I would have attacks at times when nothing would help me and it was agony for me to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acrid, and that I had spells of dizziness, as if I would fall, and I felt generally broken up. He looked up and said that he had the very thing I needed to cure me in the house—Doan's Kidney Pills. He went into the house and brought me out eight pills. I took them with me and used them two at a dose. The effect was astonishing to me. I felt it almost at once, and went to the W. and W. Pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as by their continued use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills; in short, they are Ne Plus Ultra. I am 68 years of age and have no hope of ever being permanently cured, as my trouble has become chronic, but this I do know, Doan's Kidney Pills are the best remedy for the kidneys that has ever been placed before the people of this country. Trouble with the kidneys occurs and recurs periodically, and any remedy that will ward off an attack or tide the victim over it so easily as Doan's Kidney Pills does deserve the support of the public."

Doan's Kidney Pills are for sale by all dealers, price 50 cents per box, 6 boxes for \$2.50. Mailed to any address on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

A WITCHCRAFT SCARE.

Strange Malady Among Germans at Richmond Center.

TOLEDO, Jan. 21.—Richfield Center, a little village in this county, 17 miles south of here, is in the midst of a genuine witchcraft scare. The little community is composed principally of Germans and they are thoroughly convinced that they are being made the victims of some witch or other agent of his satanic majesty.

There are 17 families afflicted with the peculiar malady. The thing has been going on for nearly a month and some 30 persons are on the verge of death. The peculiar malady seizes a whole family at a time, from the youngest to the oldest. They cannot sleep or rest at night and keep pining away until they become mere skeletons. The symptoms in all the cases are similar.

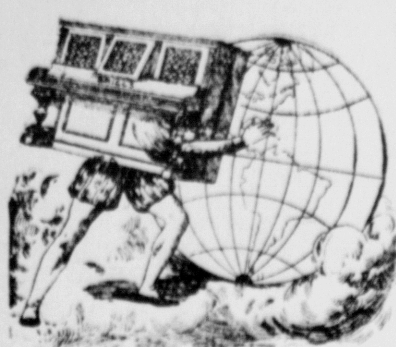

Several of those afflicted claim that they are being constantly pursued by black cats, which make faces and snarl at them. Some of them also claim that certain rooms in their houses are infested with this strange evil spirit, while other rooms are free from its influence.

A. H. Miller came to the city and reported the matter. He is a victim of the strange disease and had to be carried to and from the carriage which conveyed him owing to weakness. His wife and four sons are down with the disease and are likely to die.

Richfield Center is located ten miles from a railroad station. Mr. Miller says that the people firmly believe the whole thing is the work of some witch whom they cannot locate. Some of the horses, cattle, sheep and swine are victims of the disease. The people have burned their feather beds and resorted to other ancient methods in the hope of getting rid of the spell, but they claim they cannot shake it off. Physicians cannot diagnose the malady, but assure the patients that it is due to natural causes, possibly resulting from the unsanitary condition of the village.

BOOKS FROM THE STATE

You Can Borrow Them If You Are of Legal Age

OR GIVE A GOOD GUARANTEE

The State Library is, by a New Rule, Thrown Open to All Who Are Responsible. Special Arrangements For Reading Clubs—Can Be Retained a Month.

At last the state library is to be made available to the citizens of every county. New rules have been adopted under which books from this library may be sent to any citizen of the state over 21 years of age. Heretofore the library was not of much benefit except to state officials, members of the general assembly and residents of Columbus. The state paid for its maintenance without securing any of its benefits. Any citizen can draw books from the state library by furnishing the library board with a satisfactory guarantee or through the public library of his city. In case clubs or reading circles desire books they may be obtained in lots of 25 by paying express charges, and these books may be retained for one month. The new plan will meet with general favor. The library contains many valuable works, and all are now placed at the disposal of such citizens who desire to avail themselves of the use of these books. The privilege will undoubtedly be eagerly seized by parties living in towns where the public library is small and they have not the books necessary for a given course of reading.

TEN INDICTMENTS

Were Returned by the Grand Jury This Morning.

Lisbon, Jan. 21.—[Special].—The grand jury made a partial report this morning. It contains 10 indictments, and is as follows:

Samuel Richard, Salineville, attempting to sell an altered bank note; E. Wilson, pointing and shooting fire arms; John Jackson, Hanover, burglary and larceny; Chas. Feasline, Lisbon, cutting with intent to kill; Harry Fogo, Wellsville, larceny; John Grafton, wrongfully and illegally refusing to receive and sanctioning the rejection of the ballot of a duly qualified elector. Three indictments were returned for illegal liquor selling, the names of those indicted not being made public. The jury has again retired, and will probably finish tonight.

Marriage licenses were today issued to Harry Watson and Sarah James, Lisbon; Curtis L. Coburn and Myrta L. Keeley.

NEW BOOKS.

They Were Received at the Public Library Today.

A number of new books were received by Secretary Danberg today for the public library. They comprise the works of Thackeray, Lamb and a volume of fiction. Books are arriving almost every day, and the number in the library is constantly increasing. If you have books at home which you do not need send them around to the library. They will be thankfully received, and may do much good.

SNOWBALLS AND PROFANITY

The Combination Which Caused Pierce Little's Arrest.

Yesterday afternoon a Seventh street lady telephoned to police headquarters that several boys were snowballing and using profane language at the livery stable of Harrison Rinehart. When the officers appeared the boys scattered, but Officer Bertelo captured Pierce Little. The boy was given a patrol ride, and a charge of using profanity was placed against him. He was released after a lecture.

TURNED DOWN THE DAMPER

And the Old Davidson Building Was Fired.

Miss Claude Marshall turned down the damper of the stove in her room, in the Davidson Opera House on Second street, last night, and flames shot from the stove and communicated to the furniture. Miss Marshall was badly frightened, and called for help. A citizen responded, and put out the fire with a few buckets of water. The loss was small.

SUCCESSFUL MEETINGS.

They Are Being Conducted at Several Churches.

Rev. Mr. Cornell, of Cleveland, who arrived in the city early this week, is exhorting with much success at the Methodist Episcopal church. About 25 mourners knelt at the bench last evening, and several additions have been reported.

Rev. M. J. Grable, who is occupying the pulpit at the Disciple church during the protracted meeting, discoursed from the subject, "The Transfiguration of Christ," yesterday evening. He had a large and attentive audience, notwithstanding the very disagreeable weather. One new member was added last night by letter. Tomorrow night Reverend Grable's subject will be "The Witness of Spirit."

SEEKING INFORMATION.

A Policeman Could Not Find the Foker Joint.

One of Wellsville's efficient policemen is desirous of locating the poker game spoken of in the News Review of Tuesday. He says that he was in the vicinity mentioned when the tumult arose, but he heard no noise. It is said the commotion could have been heard a block away. Just why the officer did not hear it is beyond the powers to reveal. He wishes someone to state on oath the happening occurred. Would it not be well for the police to depend upon their own senses?

IN A MONTH AND A HALF

Ware Will Be Made In the Zanesville Pottery.

SHIPPING FACILITIES EXCELLENT

The Company Think They Have a Very Good Thing, and Are Preparing to Get Their Share of the Trade—A Meeting Was Held Last Night.

Within six weeks ware will be made by East Liverpool potters in their new plant at Zanesville.

The stockholders held a meeting last night, all being present but the Akron men. It was decided that immediate action be taken, and the plant prepared for operation at once. Only a few repairs are necessary, and no time will be lost in making them. Four of the 10 kilns must be changed somewhat, and this will be done at once. A few stove rooms must be built, and several members of the company will go to Zanesville next week to supervise their construction. The shiphouse can be made ready for work in two days, and the remainder of the plant is in the best of condition. A number of Zanesville capitalists have expressed a desire to take stock, but the company decided they already had enough stockholders. There are some Zanesville men in the project, one of them being very wealthy. There is nothing in the published story that the cost of hauling ware to the railroad would amount to thousands of dollars a year. Zanesville is a railroad center, and the shipping facilities are excellent. Another meeting of the company will be held this week.

When two Chinese men meet, their way of saying "How do you do?" is "How are your bowels?" It amounts to the same thing. If the bowels are in good condition the rest of the system is pretty sure to be all right. But when they are constipated, it has a half-paralyzing effect on the rest of the body—and the mind too. Headaches, dyspepsia, biliousness, nervousness, poor sleep, weakness, heart palpitation and gloomy spirits, all come from constipation. And that isn't the worst of it. It lays your system open to all sorts of serious and dangerous illness.

It isn't safe to neglect constipation and it isn't safe to use dangerous wrenching cathartics, to overcome it, either. What leave you worse off than before. What is needed is a mild natural laxative like Dr. Pierce's Pleasant Pellets. They act surely but without any violence. They regulate and strengthen the intestines to do their own work. When the "Pleasant Pellets" cure you, you are cured. You don't become a slave to their use. Take care the druggist doesn't give you something else he calls "just as good." It may be for him, but how about you?

You might learn a thousand valuable lessons about preserving your health by reading Dr. Pierce's Common Sense Medical Adviser. It is a grand book and the present edition is absolutely free to all who send a one-cent stamp to cover cost of mailing only. It contains 1008 pages and over 300 engravings. 650,000 cloth bound copies have been sold. \$1.50 a copy. This free edition is in strong manila paper covers, otherwise it is just the same. P. J. GREEN, V. S., TALKS.

Makes a Public Statement for the Benefit of our Citizens.

Veterinary Surgeon Green requires no introduction to our readers, and on the other hand our readers can safely be trusted to draw their own deductions and arrive at their own conclusions. Read this. "Some time ago," says Mr. Green, "while attending a sick horse belonging to Mr. G. H. Gardner, of 165 Jackson street, he remarked to me that the horse seemed to be in pain. I replied that I was the sickener of the animal, and that the time scarcely straightened up with my back from lameness, weakness and severe pains. He asked me what my symptoms were and I explained to him that I had suffered for a number of years from my kidneys, that I would have attacks at times when nothing would help me and it was agony for me to get around, but that I could not endure idleness. The secretions from the kidneys were very high colored and acidulous, that I had spells of dizziness, when I would see black specks floating before my eyes, and felt generally broken up. He looked up and said that he had the very thing I needed to cure me in the house—Doan's Kidney Pills. He went into the house and brought me out eight pills. I took them with me and used them two at a dose. The effect was astonishing to me. I felt it almost at once, and went to the W. and W. Pharmacy and bought a box and took them. The encouragement held out to me by the first eight pills was not mythical, as he had continued to use the improvement continued, and I consider no expression of praise too strong for Doan's Kidney Pills; in short, they are Ne Plus Ultra. I am 68 years of age and have no hope of ever being permanently cured, as my trouble has become chronic, but this I do know, Doan's Kidney Pills are the best remedy for the kidneys that has ever been placed before the people of this country. Trouble with the kidneys occurs and recurs periodically, and any remedy that will ward off an attack or tide the victim over it so easily as Doan's Kidney Pills does deserve the support of the public."

Doan's Kidney Pills are for sale by all dealers, price 50 cents per box, 6 boxes for \$2.50. Mailed to any address on receipt of price by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

A WITCHCRAFT SCARE.

Strange Malady Among Germans at Richmond Center.

TOLEDO, Jan. 21.—Richfield Center, a little village in this county, 17 miles south of here, is in the midst of a genuine witchcraft scare. The little community is composed principally of Germans and they are thoroughly convinced that they are being made the victims of some witch or other agent of his satanic majesty.

There are 17 families afflicted with the peculiar malady. The thing has been going on for nearly a month and some 30 persons are on the verge of death. The peculiar malady seizes a whole family at a time, from the youngest to the oldest. They cannot sleep or rest at night and keep pining away until they become mere skeletons. The symptoms in all the cases are similar.

Several of those afflicted claim that they are being constantly pursued by black cats, which make faces and snarl at them. Some of them also claim that certain rooms in their houses are infested with this strange evil spirit, while other rooms are free from its influence.

A. H. Miller came to the city and reported the matter. He is a victim of the strange disease and has to be carried to and from the carriage which conveyed him owing to weakness. His wife and four sons are down with the disease and are likely to die.

Richfield Center is located ten miles from a railroad station. Mr. Miller says that the people firmly believe the whole thing is the work of some witch whom they cannot locate.

Some of the horses, cattle, sheep and swine are victims of the disease. The people have burned their feather beds and resorted to other ancient methods in the hope of getting rid of the spell, but they claim they cannot shake it off. Physicians cannot diagnose the malady, but assure the patients that it is due to natural causes, possibly resulting from the unsanitary condition of the village.
